Agile Methodologies

## Experience:

Software Engineer | Capgemini

[July 2021] – [July 2023]

Developed and maintained responsive web applications using modern web technologies.

Collaborated with designers and back-end developers to implement user-friendly interfaces and interactive features.

Implemented RESTful APIs to facilitate communication between front-end and back-end systems.

Conducted code reviews and performed testing to ensure code quality and adherence to best practices.

Optimized application performance through code refactoring and performance tuning.

**Education:**

Master's in Full stack software development

Lambton college, 2025

Bachelor's in Electronics and Communication Engineering

Institute of Aeronautical Engineering, 2021

**Projects:**

E-commerce Platform: Developed a full-stack e-commerce platform using React.js and Node.js, allowing users to browse products, add items to the cart, and complete purchases securely.

Task Management App: Built a task management application with Vue.js and MongoDB, enabling users to create, assign, and track tasks in real-time.

Portfolio Website: Designed and developed a personal portfolio website showcasing projects, skills, and professional experience using HTML, CSS, and JavaScript.
